## SKIN REJUVENATION TREATMENTS

### Introduction to pH formula

pH formula is the first pharma-cosmeceutical treatment line which is the result of an innovative alliance between cosmeceutical and medical prescriptions. The treatment system is based on the technology of regenerative medicine with the concept of creating controlled chemical skin resurfacing. The action of controlled chemical resurfacing is totally different from conventional peelings. Peelings mainly cause skin exfoliation, whereas controlled resurfacing actively provokes an accelerated form of cell regeneration in the different layers of skin, whilst trauma and superficial irritation are reduced. Developed as a dermatological skin resurfacing system, pH formula successfully treats skin disorders like aging, hyperpigmentation, acne and chronic redness. For optimum results more than one treatment is recommended.

Consultation and taster treatment - Includes full skin assessment and introductory treatment to pH formula	£35
pH formula single facial treatment	£55
pH formula Vitamin C treatment	£55
Course of 4 treatments	£200
Course of 6 Treatments	£290
Course of 8 treatments	£360

### Dermaplane

Immediately rejuvenates the skin by removing the top layer of dead skin cells and vellus hair, leaving the skin smooth, supple and radiant. Ideal for prepping the skin prior to resurfacing treatments to increase the penetration of active ingredients.

Standard Dermaplane	£35
Deluxe Dermaplane - Includes nourishing face mask with neck and shoulder massage	£60
Add skin needling (roller) or LED light therapy to your treatment for	£10

### The pHacial £90

A bespoke facial treatment for the ultimate glow! 2hrs of pure skin indulgence, six treatments in one session. Dermaplaning, pH formula resurfacing treatment, skin needling, LED light therapy, soothing face mask with a relaxing neck and shoulder massage.

### LED light therapy treatment

A non- invasive, pain free skin rejuvenation treatment, that treats acne breakouts and help deminish fine lines and wrinkles.
